

Work Order Request Tracking Procedure

1

Issue Identified

JLL MTS issues the WORQ.
BMO Facilities Contact (FC) identifies the area of concern.

JLL MTS

2

FM Consultation

Determine if the request may qualify as Unplanned Capital.

FACILITY MANAGER

3

Cost Validation

FM reviews and validates labor & material costs.

FACILITY MANAGER

4

Do Not Proceed

Await FM validation, OPEX funding review, and Unplanned Capital tracking determination.

HARD STOP

EXECUTIVE GUIDANCE

- ✓ All WORQ requests must be reviewed with the Facility Manager prior to authorization or execution.
- ✓ Labor and Material costs shall be validated with the FM to assess available OPEX funding.
- ✓ Requests potentially exceeding OPEX thresholds or involving asset replacement must be evaluated for Unplanned Capital classification.
- ✓ JLL MTS shall not proceed with work until funding, project classification, and cost validation have been confirmed by the FM.
- ✓ This process improves financial accountability, spend visibility, capital tracking, and governance compliance.
